

**MECHANICAL SWEEPER**

**PR 601**

**Mechanical Sweeper** is a walk-behind sweeper which is ten times faster than manual sweeping. It sweeps faster & more thoroughly than a broom, saving time & labour costs. Runs manually, so no need for Electricity / Fuel Motor. Tank made of Strong Fiber and suits for all weather purpose, long life and low noise.

Model	Cleaning Capacity	Hopper Capacity	Packed Weight	Packed Dimension
